

REQUEST FOR QUOTATION – OPS 05/2016

RE-ADVERTISEMENT

CCTV NETWORK UPGRADE AND EQUIPMENT CABINET RELOCATION

1. Background

The Durban ICC is one of the world's leading events and meeting destinations. In order to maintain the extremely high security standards demanded by management, the CCTV operation/effectiveness needs to be of the highest standard.

The Durban ICC currently utilizes an IP (Internet Protocol) and Analogue System. The facility has 308 CCTV cameras which vary from static to PTZ (Pan, Tilt and Zoom) cameras.

The current CCTV network is comprised of a main CCTV cabinet which houses 7 X Avigilon (product manufacturer) servers together with a combination of network switches and analogue to IP convertors. Access network switches are strategically positioned in various areas of the centre to allow cameras to connect back to the network. These access switches are interlinked via Fibre and CAT 6 cables. The system is however not linked to one local area network due to the current fibre optic cable availability in certain areas within the centre.

The main CCTV cabinet is also not in a suitable environment as there are currently air-conditioning and expansion limitations.

2. Purpose of the request for proposal

The Durban ICC requires the services of a suitably qualified, experienced and specialised service provider to firstly relocate the current CCTV main cabinet to an already identified area which will comfortably accommodate the current equipment and cater for proper cooling and expansion.

Two fibre core switches (supplied by the Durban ICC) will then need to be installed and configured in the main CCTV cabinet with fibre connections to all CCTV switches. Fibre optic cabling needs to be installed where there is currently no existing infrastructure in place. The network then needs to be properly configured according to manufacturer best practices.

All equipment needs to be installed and racked to a green light status. The appointed service provider must thereafter ensure that the system is 100 % operational and to the satisfaction of the Durban ICC.

3. Mandatory Requirements:

Does the service provider comply with the mandatory requirement? Please tick as illustrated.	Yes	No
	✓	X
<ul style="list-style-type: none"> The service provider must be Durban based (within a 50 km radius of the Durban ICC, 45 Bram Fischer Road). Attach proof of location. 		
<ul style="list-style-type: none"> The service provider must have sufficient experience in CCTV installations. Attach two letters of reference from clients for installations similar in size and complexity as the Durban ICC. 		
<ul style="list-style-type: none"> The service provider must be PSIRA certified. Attach proof 		
<ul style="list-style-type: none"> The service provider must be Avigilon certified. Attach proof. <p><i>Kindly note: The product manufacturer (Avigilon) requires the service provider to be Avigilon certified in order to operate the system else the warranty which is currently in place for the CCTV system at the Durban ICC will be deemed invalid.</i></p>		

Please note: failure to meet the mandatory requirements as illustrated above will result in your submission being deemed non-responsive and will not be evaluated.

4. Mandatory Scope of Works:

Does the service provider comply with the mandatory scope of works? Please tick as illustrated.	Yes	No
	✓	X
<ul style="list-style-type: none"> To install, splice, test and commission a 4 core fibre optic cable from the Durban ICC main CCTV cabinet to 6 X access switches in various areas within the ICC. (Including rack mount splice trays). 		
<ul style="list-style-type: none"> To install, splice, test and commission a 4 core fibre optic cable from the Durban Exhibition Centre CCTV cabinet to 6 X access switches in various areas within the DEC. (Including rack mount splice trays). 		
<ul style="list-style-type: none"> Relocate the current CCTV main cabinet to the new area identified by the Durban ICC with all equipment racked and stacked to a green light status. 		
<ul style="list-style-type: none"> To install the core switch (supplied by the Durban ICC) in the main CCTV cabinet at the ICC and connect all the access switches, including servers to the core switch. 		
<ul style="list-style-type: none"> To install the core switch (supplied by the Durban ICC) in the DEC CCTV cabinet and connect all the access switches to the core switch.
